EDUCATION

MSC COMPUTER SCIENCE

University of Manchester

2019-2021

BSC SOFTWARE ENGINEERING

Imperial College London

2015-2019

SKILLS

Java 21

Kotlin

Groovy

Python

SQL

LANGUAGES

ENGLISH (Fluent)

GERMAN (Intermediate)

SPANISH (Basic)

PROFESSIONAL PROFILE

Platform engineer with **10+ years** building resilient document-generation pipelines, layout engines, and developer-facing template systems. Specialised in high-throughput PDF rendering, semantic authoring DSLs, and turning brittle production-ops scripts into typed, snapshot-tested libraries that scale.

EXPERIENCE

SENIOR PLATFORM ENGINEER

Northwind Systems | 2024-Present

Led the reusable document-generation platform serving billing, hiring, and reporting flows across **8 product teams**. Reduced template maintenance time by **70%** by retiring per-team PDF scripts in favour of one canonical engine.

SOFTWARE ENGINEER

BrightLeaf Labs | 2021-2024

Built backend services and production document rendering pipelines processing **2M+ documents per month**. Drove the migration from iText to a custom layout engine, eliminating licensing risk and cutting p99 render latency from 1.4s to 380ms.

PROJECTS

GraphCompose (Java 21, PDFBox, Maven, JMH)

Declarative Java PDF layout engine. Semantic DSL, slot-based templates, snapshot testing. Powers production CV / invoice / proposal pipelines for hiring tools and billing systems. (Open source)

Template Studio (Kotlin, Compose Desktop, PDFBox PNG diff)

Internal tool for evaluating CV, proposal, and invoice output across 14 design presets. PNG diffing, side-by-side layout, baseline freezing.
