

JORDAN RIVERA

Backend Java Developer
+44 20 5555 1000 - London, UK
jordan.rivera@example.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL PROFILE

Platform engineer with **10+ years** building resilient document-generation pipelines, layout engines, and developer-facing template systems. Specialised in high-throughput PDF rendering, semantic authoring DSLs, and turning brittle production-ops scripts into typed, snapshot-tested libraries that scale.

PROJECTS

GraphCompose

Java 21, PDFBox, Maven, JMH

Declarative Java PDF layout engine. Semantic DSL, slot-based templates, snapshot testing. Powers production CV / invoice / proposal pipelines for hiring tools and billing systems. (Open source)

Template Studio

Kotlin, Compose Desktop, PDFBox PNG diff

Internal tool for evaluating CV, proposal, and invoice output across 14 design presets. PNG diffing, side-by-side layout, baseline freezing.

LayoutLint

Java 21, JavaParser, Spoon

Static analyser that flags fragile authoring patterns (deeply nested rows, untyped offsets, implicit page breaks) before they ship to production.

ChromeForge

Java, GraphCompose, Pandoc bridge

Editorial-magazine document toolkit built on GraphCompose: cinematic covers, pull quotes, multi-column flow, sidebar callouts.

KEY SKILLS

• Java 21	• Kotlin	• Groovy	• Python
• SQL	• PDFBox	• Apache POI (DOCX/XLSX)	• iText
• PostScript	• ICC colour profiles	• font metrics	• Custom DSL design
• semantic layout trees	• pagination	• snapshot testing	• visual regression
• Maven	• Gradle	• GitHub Actions	• JitPack
• Docker	• JMH benchmarking	• JUnit 5	• AssertJ
• PDFBox-based PNG diff	• layout-graph snapshots	• mutation testing (Pitest)	• Maven Central
• Sonatype OSSRH	• GPG signing	• JitPack	• semantic versioning discipline

ADDITIONAL

Languages: English (Fluent), German (Intermediate), Spanish (Basic)

Work Eligibility: Eligible to work in the UK and the EU

Open Source: Maintainer of GraphCompose. Regular contributor to PDFBox issue triage.

Speaking: JVM Summit 2024, Devoxx UK 2025 — both on declarative document layout.
