3. Notes

Overview

GraphCompose now renders in-document navigation [1] entirely with native PDF go-to actions.

Details

Anchors resolve in a deferred pass, so a link may target an anchor that appears later in the document (a forward reference).

Jump back to the contents.

Inline graphics navigate too — ● click the dot to jump to the notes.

Notes

[1] Click the marker to jump back to the citation in the overview.

External links still work: project home
