EDUCATION

MSC COMPUTER SCIENCE

University of Manchester

2021. Distinction. Thesis: Composable layout primitives for deterministic document rendering.

BSC SOFTWARE ENGINEERING

Imperial College London

2019. First-class honours. Specialisation in compilers and static analysis.

KEY SKILLS

Java 21

Kotlin

Groovy

Python

SQL

LANGUAGES

ENGLISH (Fluent)

GERMAN (Intermediate)

SPANISH (Basic)

PROFESSIONAL PROFILE

Platform engineer with **10+ years** building resilient document-generation pipelines, layout engines, and developer-facing template systems. Specialised in high-throughput PDF rendering, semantic authoring DSLs, and turning brittle production-ops scripts into typed, snapshot-tested libraries that scale.

EXPERIENCE

SENIOR PLATFORM ENGINEER

Northwind Systems | 2024-Present

Led the reusable document-generation platform serving billing, hiring, and reporting flows across 8 product teams. Reduced template maintenance time by 70% by retiring per-team PDF scripts in favour of one canonical engine.

SOFTWARE ENGINEER

BrightLeaf Labs | 2021-2024

Built backend services and production document rendering pipelines processing 2M+ documents per month. Drove the migration from iText to a custom layout engine, eliminating licensing risk and cutting p99 render latency from 1.4s to 380ms.
